RE: OPEN RECORDS REQUEST of June 06, 2026., Reference # R279240-060626.

Dear Marvin Lim,

Gwinnett County received an open records request from you on June 06, 2026. Your request mentioned:

"Pursuant to the Georgia Open Records Act, O.C.G.A. § 50-18-70 et seq., I request access to and copies of the following records relating to the Gwinnett County Sheriff's Office's use of Flock Safety automated license plate reader (ALPR) systems and the sharing of Flock data with immigration enforcement and homeland security agencies, including, but not limited to, U.S. Immigration and Customs Enforcement (ICE), Homeland Security Investigations (HSI), Customs and Border Protection (CBP), the Department of Homeland Security (DHS), and any component thereof.

For purposes of this request:

- * "Flock" includes Flock Safety, Flock Group Inc., and any subsidiaries, affiliates, contractors, or entities acting on their behalf.**
- * The phrase "records sufficient to show" or "records sufficient to identify" includes, but is not limited to, reports, spreadsheets, lists, screenshots, database exports, configuration records, correspondence, agreements, memoranda, logs, or other records containing the requested information and does not require the creation of a new record.**
- * Unless otherwise specified, this request seeks records created, received, maintained, or in effect on or after January 1, 2023.**

I request the following records:

- 1. Records sufficient to identify whether U.S. Immigration and Customs Enforcement (ICE), Homeland Security Investigations (HSI), Customs and Border Protection (CBP), the**

Department of Homeland Security (DHS), or any component thereof currently has access to Gwinnett County Sheriff's Office Flock data, whether through direct access, shared access, federated search, network access, lookup access, hot-list sharing, or any equivalent functionality.

2. Records sufficient to show whether ICE, HSI, CBP, DHS, or any component thereof has been granted access to Gwinnett County Sheriff's Office Flock data or Flock systems at any time since January 1, 2023.

3. Records sufficient to identify every agency, department, task force, fusion center, governmental entity, or other organization with which the Gwinnett County Sheriff's Office has enabled, participated in, or been granted "Network Access," "Lookup Access," "Hot List Sharing," federated search functionality, or any equivalent Flock Safety data-sharing capability since January 1, 2023.

4. Records sufficient to identify all agencies currently visible within the Sheriff's Office's Flock sharing network, agency-sharing network, participating-agency list, access-management interface, or equivalent Flock administrative interface, including ICE, HSI, CBP, DHS, or any component thereof.

5. Any agreements, memoranda, policies, directives, procedures, guidance documents, user-access agreements, participation agreements, or similar records governing the sharing of Flock data with ICE, HSI, CBP, DHS, or any component thereof.

6. Records sufficient to show the current sharing settings, permissions, network-sharing relationships, agency-access configurations, or equivalent access-control settings within the Flock platform, including screenshots, exports, reports, configuration records, administrative records, or other records reflecting those settings.

7. Any policies governing whether, when, and under what circumstances Flock data may be shared with ICE, HSI, CBP, DHS, or any component thereof.

8. Records sufficient to show communications between the Gwinnett County Sheriff's Office and Flock Safety concerning access to, sharing of, or restrictions on access to Sheriff's Office Flock data by ICE, HSI, CBP, DHS, or any component thereof.

To the extent responsive information is maintained within the Flock Safety platform or any associated administrative interface, this request includes screenshots, exports, reports, configuration settings, user-permission records, network-sharing records, access-control records, audit logs, and other records sufficient to identify participating agencies, users, access privileges, sharing relationships, and data-access permissions.

To the extent the requested information is maintained by Flock Safety on behalf of the Gwinnett County Sheriff's Office, this request seeks any records within the possession, custody, or control of the Sheriff's Office, including records accessible through Sheriff's Office-authorized Flock administrative accounts.

If any responsive records are maintained electronically and can be produced in native format, spreadsheet format, database export format, or other machine-readable format, I

request that they be provided in that format where reasonably available.

If any portion of this request is denied, please identify the specific records withheld and the legal basis for withholding them, including the specific statutory exemption relied upon, and provide all reasonably segregable non-exempt portions.

If fulfilling this request will result in fees exceeding \$25, please notify me before incurring those costs."

There were no responsive records for 1., 2., 5., 7., and 8. of your request.

We are still searching to see if there are responsive records for 3., 4., and 6. and will provide you with an update for your request on 06/11/2026 before close of business.

If you have any questions, please contact our office at 770-619-6539. Thank you for your attention.

Sincerely,

Antonia Thomas, Customer Service Associate III
